Radiator Cover / Cabinet Measuring Guide

**Fill in the measurements guide below:
Go back to our website when completed to quote your order.**

1: Measure from the end of each radiator valve and add 20 mm. (This is the internal length)

Cover 1	Cover 2	Cover 3	Cover 4
.....

2: Measure from the floor to the top of the radiator and add 30 mm. (This is the internal height)

Cover 1	Cover 2	Cover 3	Cover 4
.....

3: Measure from the wall to the face of the radiator and add 10 mm. (This is the internal depth)

Cover 1	Cover 2	Cover 3	Cover 4
.....

These are the internal measurements and are what we will use to make your radiator cover / cabinet.

4 (Optional):

Measure the skirting board height and depth and any restrictions around the radiator.

Cover 1	Cover 2	Cover 3	Cover 4
.....
Cover 1	Cover 2	Cover 3	Cover 4
.....
Cover 1	Cover 2	Cover 3	Cover 4
.....

5 (Optional):

If you require valve access please follow the below guide:

5.1: Measure from the floor to the bottom of the valve.

Cover 1	Cover 2	Cover 3	Cover 4
.....

5.2: Measure from the floor to the top of the valve.

Cover 1	Cover 2	Cover 3	Cover 4
.....

5.3: Measure from the wall to the back of the valve.

Cover 1	Cover 2	Cover 3	Cover 4
.....
